

SAIHAJDEEP SINGH KAUR

ssingh@elpuig.xeill.net / innitsandy@gmail.com / +34 722 41 97 38

PROFESSIONAL PROFILE

Higher Vocational Education student in Microcomputer Systems and Networks with practical experience in technical support, system maintenance, networking, and data analysis. Strong interest in cybersecurity, systems administration, software development, and network infrastructure. Self-taught learner with experience acquiring technical knowledge independently through online resources and hands-on practice. Seeking opportunities to gain practical experience in IT, cybersecurity, systems administration, software development, or technical support environments.

EDUCATION

- **Institut Puig Castellar** - Intermediate Vocational Education in Microcomputer Systems and Networks.
- **Institut Puig Castellar** - Higher Vocational Education in Microcomputer Systems and Networks.

PROFESSIONAL EXPERIENCE

Educational Center (700 hours)

- Provided basic technical support to staff and users
- Performed computer maintenance and troubleshooting
- Installed and updated operating systems
- Configured systems and internal networks
- Assisted with hardware and software setup

Erasmus Internship - Bosch (80 hours)

- Provided basic technical support
- Assisted with data analysis tasks
- Participated in troubleshooting activities
- Supported system integration processes

TECHNICAL SKILLS

- **Operating Systems & Virtualization:** Windows and Linux installation and configuration. VirtualBox and VMware.
- **Networking:** Intermediate network configuration (IP, DHCP, DNS, routers). Internal network setup and troubleshooting.
- **Programming & Development:** Java, HTML, CSS. Minecraft modding (Fabric, Origins API, datapacks). Visual Studio Code.
- **Hardware & Technical Support:** PC assembly and hardware maintenance. Technical troubleshooting and incident resolution. System maintenance and user support.
- **Games dev (currently learning):** Minecraft (Mods/Plugins/Datapacks), MCFFunction (JSON), JMC.

KEY STRENGTHS

- Basic IT infrastructure knowledge
- Basic systems and network administration
- Technical problem solving and troubleshooting
- Technical research and information analysis
- Strong English communication skills
- Continuous learning mindset, self-taught and independent learner
- Adaptability to new technologies and environments

LANGUAGES

- English (C1), Hindi/Urdu (C1).
- Spanish (B2), Catalan (B2), Punjabi (B2).
